SUMMARY

A focused and performance driven developer, creating tech that make life easier and also create awesome user experience that drive business growth. looking for a job opportunity, to further develop my skills while contributing to the growth of the organization My goal is to be able to contribute to the development of any organization I find my self and also develop my self in return.

EXPERIENCE

Hytch Africa (Hytch Giant Technologies) - Frontend Engineer (React Native)

December 2021 - Present - Remote

https://hytch.africa, https://apps.apple.com/ng/app/hytch-drive/id1614428338,
https://play.google.com/store/apps/details?id=com.hytch.driver

Hytch is a mobility network where passengers can share rides with other passengers and private car or bus going their direction. We are helping cities evolve towards decreasing traffic congestion through ride sharing. HytchGoal is to make transportation comfortable, accessible and affordable to everyone in Africa through technology and shared mobility.

• Creating seamless experience for drivers
• Work with the mobile map API to provide smooth navigation experience.
• Communicate with the backend with GraphQL protocol.
• Build pixel-perfect, buttery smooth UIs across both mobile platforms.
• Diagnose and fix bugs and performance bottlenecks for performance that feels native.
• Building stable and maintainable codebases using React, Typescript and Javascript.

Tools/Technologies: React Native, TypeScript, Redux, GraphQL, Git, Map API, Git
